THE HUM III EXPERIENCE

Start With Why
by Mr. Mark Nolan, English Teacher

I am an educator because I believe strongly in the power of education for all students, not just the privileged or politically connected. You don’t need to go to college in order to be successful, but everyone does need a well-rounded high school education as a starting point for their career and life. Without education, and the ability to think critically, you make yourself susceptible to forces in the world that seek to take advantage of your ignorance.
